

Health promotion and prevention in primary health care in Europe

Leo Pas and Matea Bulc

on behalf of EUROPREV

Background

LJUBLJANA POLICY STATEMENT AND REFORM October 2012

- 1° Update state of the art on health promotion and prevention
- 2° Progress policies of Nat colleges and international networks
- 3° To enhance and support these by specific working groups
- 4° Open to individual members with specific interests

STEP 1 :

Overview of national strategies

Methodology:

1. Contact all nat colleges and academies
2. Write networks Euract, Equip, EGPRN
3. Identify potential contacts in all countries
4. Review existent strategies
5. Compare implementaion strategies

Step 2. Working groups

- *Health behavior change and smoking*
- *Hazardous alcohol use in primary care*
- *Cardiovascular risk prevention*
- *Independent review group on mammography screening*
- *Colorectal cancer screening*
- *Vaccinations*
- *Family violence*
- *Quaternary prevention*

Step 2. Working groups

- ***Smoking and health behavior change***
- ***Hazardous alcohol use in primary care***
- ***Cardiovascular risk prevention***
- ***Independent review mammography screening***
- ***Colorectal cancer screening***
- ***Vaccinations***
- ***Family violence***
- ***Quaternary prevention***

UPDATE JUNE 2013 : 16 country study

AREA FOR NEW DEVELOPMENTS

AREA FOR PRIORITY EXCHANGE

ACTIVE COMPARISON USEFUL

CONCLUSIONS

- PUTTING THEORY IN PRACTICE REQUIRES
A BROADER COMBINATION OF IMPLEMENTATION STRATEGIES
- EUROPREV :
FORUM FOR EXCHANGE TO WORK ON JOINT PRIORITIES TOWARDS
EUROPEAN WIDE QUALITY IN HEALTH PROMOTION AND PREVENTION
- GENERAL PRIORITY AREAS :
QUARTERNARY PREVENTION, FAMILY VIOLENCE,
FALL PREVENTION, MELANOMA
- CQI TOOL DEVELOPMENT : ALL AREAS
- CRITICAL REVIEW AND DEFINE SPECIFIC GP STRATEGY:
BREAST AND COLORECTAL CANCER

INTERESTED OR ACTIVE COLLEGE/NETWORK MEMBER ?
